1.14 GOODS AND SERVICES

When filing a trademark application, applicants must provide a comprehensive list of the goods and/or services for which the trademark will be used. This list is crucial because it defines the scope of the trademark rights granted upon registration refer Trademark Regulations 2019, paragraph 11(1)(a)(b)(i)(ii)(A)(B) and Trademark Act under Section 19(1).

When filing a trademark application, applicants must provide a clear list of goods and/or services that the trademark will cover, as this defines the scope of protection under the Trademark Act 2019. Malaysia follows the Nice Classification system, which categorizes goods into Classes 1-34 and services into Classes 35-45, recognized internationally by over 150 countries.

The application fee varies depending on whether the goods or services are from a pre-approved list. It costs RM950 per class for pre-approved items and RM1,100 per class for non-pre-approved items. Applicants can include multiple classes in one application, with fees based on the total number of classes selected.

1.18 REQUEST FOR EXPEDITED EXAMINATION OF A TRADEMARK APPLICATION

a. Form & fees

Submission of Form (TMA4) + fee RM1000 (for each class)

Expedited Examination

Trademark applications may be eligible for expedited examination, which allows the application to be processed faster than the standard procedure. This can potentially lead to an earlier registration of the trademark S17(5).

b. Types of applications qualify for expedited examination

An applicant may request for an expedited examination for a trademark application to shorten the processing time. However, this option is only available for certain types of trademarks, TM Regulations 8(1). Please refer to the table below to see which types of applications qualify for expedited examination:

Trademark	Nature of Trademark	Allowed for Expedited Examination
Traditional	i. Word ii. Device iii. Combination of word and device iv. Stylized word	
	v. Collective Mark vi. Certification Mark	

Non-Traditional	I. Shape of goods or their packaging	
	II. Colour III. Sound IV. Scent V. Hologram VI. Positioning VII. Sequence of Motion VIII. Any combination of the above (please mark also the nature of trademark to be combined)	 

1.19 REASONS FOR REQUESTING THE EXPEDITED EXAMINATION

To request expedited examination of a trademark application, applicants compulsory to provide **specific reasons as per below:**

- i. National or public interest.
- ii. Ongoing/potential infringement (e.g., legal proceedings or evidence of unauthorized use).
- iii. Registration required for government/institutional monetary benefits.
- iv. Other reasonable grounds (e.g., urgent business needs).

1.20 SUBMISSION OF FORM TMA4 FOR EXPEDITED EXAMINATION

An applicant may file Form TMA4 to expedite the substantive examination even if it was not submitted together with Form TMA2 (the trademark

application). However, this is only allowed *before* the application status changes to "Accepted."

1.21 PROCESSING TIME AND LIMITATIONS OF EXPEDITED TRADEMARK EXAMINATION

A request for expedited examination of a trademark application usually takes about four (4) months and two (2) weeks to process, provided that the application is a "clear-cut case". This means the application must not have any major issues, such as similarity with existing trademarks or other legal concerns.

However, if the Registrar raises any objections during the examination for example, if the trademark is too similar to an existing one or lacks distinctiveness, the application will no longer be treated as expedited. Instead, it will be processed under the normal examination timeline, just like a regular application.

1.24 FILING A TRADEMARK APPLICATION AFTER PAS RESULT.

Once the result is out and shows an “Affirmative” result, applicant may proceed to file a formal trademark application – TMA2 (**Section 17 of the Trademark Act**).

- This application needs to be applied **as soon as possible**. – **GTM 2019 5(1) pg. 28**. This is to ensure that applicant secure their right before someone else register a similar trademark before they do.
- **PSA reference number** (from your search result) needs to be included in the application form.

1.25 REFUND OF TRADEMARK APPLICATION FEE

If the trademark application gets a provisional refusal after passed the PSA result, you may eligible for a refund under **Section 13(2) of the Trademark Act**.

a. When can apply for a refund?

It can be request if trademark application is refused due to:

i. Absolute Grounds (Trademark is not unique/distinctive)

Illustration for (i): Based on provisional refusal on absolute grounds.

An applicant had applied for preliminary advice and search. After examination, the Registrar issued an affirmative result to that preliminary advice and search that the trademark can be registered.

Acting on the advice, the applicant proceeds to make an application to register his trademark. However, later on, the applicant received a provisional refusal based on absolute grounds. Since the provisional was based on absolute grounds, the applicant is entitled to get refund on the fee paid for his application to register his trademark.

ii. Relative Ground due to Examiner's Error (MyIPO mistakenly approved PSA)

Illustration for (ii): Based on provisional refusal on relative grounds because of examiner's error

An applicant had applied for preliminary advice and search on 1 January 2025. After conducting the examination, the Registrar issued an affirmative result on 15 January 2025 that the trademark can be registered.

Acting on the advice, the applicant proceeds to make an application to register his trademark on 16 January 2025. However, later on, the applicant received a provisional refusal based on relative grounds. The earlier mark was applied on 15 December 2024. Thus, the earlier mark should be on record during the Registrar's examination of the request for preliminary advice and search.

In this situation, the applicant is entitled to get refund on the fee paid for his application to register his trademark.

b. When cannot get a refund?

i. Another trademark was file before applying for trademark application.

Illustration for (i): Based on provisional refusal out of control of examiner.

An applicant had applied for preliminary advice and search on 1 January 2025. After examination, the Registrar issued an affirmative result on 15 January 2025 that the trademark can be registered.

Acting on the advice, the applicant proceed to make an application to register his trademark on 20 January 2025. However, another person had applied for an identical or similar trademark on 16 January 2025. Later on, the applicant received a provisional refusal based on relative grounds. The earlier trademark was entered into the record after the Registrar had given the result of the request of preliminary advice and search but before the applicant had made an application to register his trademark.

In this case, the existence of the earlier trademark is well beyond the control of the examiner. Thus, the applicant cannot apply for refund of fee under this circumstance.

ii. Provisional refusal is for a class not covered in PAS.

Illustration for (ii): Provisional refusal on absolute or relative grounds on the classes that were not part of the classes applied for during preliminary advice and search.

The applicant applied for preliminary advice and search for classes 3 and 5 on 1 January 2025. After examination, the examiner issued the preliminary advice and search result that the trademark can be registered on 15 January 2025.

Acting on the advice, the applicant proceed to make an application to register his trademark on 16 January 2025. However, the applicant had not only applied for goods or services in class 3 and 5 but also in class 44.

Later on, the applicant received a provisional refusal based on either absolute or relative grounds but only for goods in class 44. Since services in class 44 is not part of the classes applied for during the application of preliminary advice and search, an applicant cannot get a refund on the fees paid for application for registering the trademark.

c. How to apply for a refund?

i. Step 1: Withdraw trademark application. – TMP1

- Before requesting a refund, applicant must **withdraw the trademark application** by submitting a withdrawal form and **paying the withdrawal fee**.
- This must be done **within 2 months** of receiving the **provisional refusal**.

ii. Step 2: Submit a refund request (TMM1)

- After withdrawing, submit a **request for a refund** and pay the **prescribed fee**.
- MyIPO will review applicant's request and decide whether they are qualifying for a refund or not.
